3.	" <i>rosea</i>	-	"	"	
2.	B5-5/2 " <i>splendens</i>	77/38	"	"	

The variety mentioned by Ridley, F.M.P. II, p.107 has been found at Gua Tipus and Batu Caves and may be a distinct species.

Tarennia Ridleyi Pears. UPPER PERAK. Not very common in the Peninsula, usually in forest in the south.

Tarennia ?stellulata Ridl. GUNONG BALING, SFN 35367. (Kiah).

Tarennia sp. prox. *T. pulchra* Ridl. BUKIT LAGI, PERLIS. (Henderson sine num.).

Tarennia sp. aff. *T. attenuata* Ind. Kew. BUKIT SAGU, PAHANG, SFN 25091 (Henderson).

Tarennia sp. BUKIT TAKUR, ~~KANCHING~~ SELANGOR, Forest Dept. F.M.S. G.F. 37415, 39592 (Symington); SFN 34383 (Nur).

Timonius atropurpureus Craib. LANGKAWI, apparently common.

Perhaps confined to limestone, although only two of the several collections are stated to be from limestone. Recorded from Lower Siam on rocks, formation not specified.

Dubious records:

Hymenodictyon excelsum Wall. LANGKAWI. Known only from here in the Peninsula. Recorded from limestone in Siam.

Ixora javanica DC. SETUL. KOTA GLANGGI.

Ixora pumila Ridl. GUNONG SENNYUM, collected by Evans. Known only from here and Kuala Tahan, Pahang.

Ophiorrhiza discolor R.Br. BATU CAVES. Common in the Peninsula in lowland forest, often in rocky places.

Ophiorrhiza major Ridl. PERAK. PAHANG. SELANGOR. No definite records, although it is known from near bases of limestone cliffs. Common in lowland forest.

Ophiorrhiza remotiflora Ridl. PAHANG. Probably on limestone, as it has been collected close to cliff bases. Rare in the Peninsula, known from granite and shale formations.

Randia fasciculata DC. SETUL. PERLIS. Not uncommon in the north of the Peninsula in open places or near the sea.

Psychotria lanceolaria Ridl. BATU CAVES. Known only from here.

Prismatomeris malayana Ridl. KAKI BUKIT, PERLIS. Common in the Peninsula, usually in open places, often on the coast.

Psychotria angulata Korth. ?PERLIS. PAHANG. SELANGOR. Not uncommon on limestone. Common in the Peninsula in forest, often in rocky places.

Psychotria Cantleyi Ridl. ?PAHANG. BATU CAVES. Widely distributed in lowland forest but only once definitely recorded from limestone.

Psychotria montana Bl. PERAK. Common in the Peninsula, often in rocky forest.

Psychotria rhinocerotis Reinw. LANGKAWI. PERLIS. PERAK. PAHANG. Not uncommon on limestone. Common in the Peninsula in rocky places in forest.

Psychotria rostrata Bl. PAHANG. Only once definitely recorded, but several times collected close to limestone. Common in lowland forest.

Psychotria viridiflora Reinw. PAHANG. ?SELANGOR. Common in open and rocky places both in the lowlands and the hills.

Randia oppositifolia Koords. LANGKAWI. PERLIS. KEDAH. PERAK. SELANGOR. A rather doubtful plant. It may be a variety of this species, which is common in the Peninsula.

Randia sp. BUKIT TAKUN, ^{SELANGOR, Forest Dept. M.S.} ~~KANCHING~~ G.F. 37439 (Symington).

Saprosma sp. KAKI BUKIT, PERLIS (Kiah 11/4/38, sine num.).

Tarenna angustifolia Merr. PERAK, top of limestone hills. known only from here in the Peninsula. Two collections are recorded from Siam, one from limestone, the other from rocks, formation not stated.

Tarenna calcarea Ridl. PERAK. Known only from limestone near Ipoh.

Tarenna Curtisii Ridl. LANGKAWI. PERLIS. KELANTAN. Otherwise known only from limestone in Lower Siam. King, in Mat.F.M.P., includes Wray 3612 from Gunong Inas under this species. I have not seen this number, but Wray 4113 from the same locality is not *Tarenna Curtisii*.
